

Welcome! to fourth grade!

Fourth Grade is going to be supercharged for the 2021 – 2022 school year and we could not be more excited! We have a lot of plans already in the works that are going to make this year one of THE best EVER! One of the most exciting things is the return of our PARENT VOLUNTEERS! We will be having as many of our parents that can be in our classes working with each of you in Reading and Math. Our quarterly goals in these subject areas need the help of every family member that can participate. More information will be coming once school starts.

Our Science program shifted last year due to the new SEEd Standards and now with a year under our belts, we have revamped our instruction and investigations. It is going to be even better than before. Be ready to learn how to question events that happen in the world and then find the answers to them.

Math, Reading, Spelling, and Vocabulary are going to have a larger focus. The teaching team will be sharing our quarterly goals with each of you after the beginning of the school year and where your child lands among them. We will be conducting weekly and bi-weekly assessments on basic skills to ensure that every area of need is being addressed, mastered, and retained. It will take a lot of work, but we are in the 4th grade now and we can handle even bigger challenges!

Other exciting changes for this school year include FIELD TRIPS, grade level projects, and monthly service projects that will help our school and community. All of this information will be coming in more detail once we are back in the building and learning.

This year will for sure be extremely dynamic, FUN, academically challenging, and filled with opportunities for growth. It is going to be a lot of hard work and very rewarding.

The team looks forward to the first day of school so that we can hit the ground running and make the most out of every single second in our learning day.

Here's to 2021 – 2022 in 4th Grade!
