

Welcome to Middle School Science 2022-2023!

Hello students and parents! My name is Rebecca Pearson, and I am the Junior High Science teacher at Athlos Academy. I am **beyond** excited for the next school year, and even more excited to inspire the next generation of scientists. Look at some of my goals for next year and some pictures of our fun hands.

Here are my goals for next year:

1. Teach my students how to think like scientists.
2. Show my students that science is interesting and MEGA fun!

Here are some things you can expect from Middle School Science next year:

- LOTS of hands-on science labs and simulations
 - Monster Genetics Simulation
 - Protein Synthesis Simulation
 - Cheek Cell Lab
 - Chemical Properties of Matter
 - Rat Dissection - And many more!
- In-Class and At-Home Projects
- Homework and Assignments that foster critical thinking
- Training on Lab Equipment (Microscopes, Dissection Tools, Triple Beam Balance, etc.)
- FUN! FUN! FUN! I'm excited to see you all next year!
