## RECEIVED "EXEMPLARY" IN GROWTH FROM THE UTAH STATE BOARD OF EDUCATION (USBE)

According to USBE, students are assessed in the concepts and skills taught in the classroom each spring, measuring student learning and the Utah State Standards. This measure shows the amount of improvement, or Growth, students have made in each subject, illustrating the extent to which student learning is improving.

## A BALANCED APPROACH TO LEARNING

In addition to preparing children to excel academically, Athlos Academy also prepares students for lifelong success by focusing on health and performance character education. For students to succeed academically and in life, they need to be more than just academically adept; that is why our unique three-pillar approach to education combines a Prepared Mind, Healthy Body, and Performance Character.

## AWARD-WINNING EDUCATORS
